## **DETAILED ACTION**

### ***Status of Claims***

1. Claim 1 is pending.

### ***Abstract***

2. The abstract is objected. Applicant is reminded of the proper language and format for an abstract of the disclosure. The abstract should be in narrative form and generally limited to a single paragraph on a separate sheet within the range of 50 to 150 words. The abstract should describe the disclosure sufficiently to assist readers in deciding whether there is a need for consulting the full patent text for details.

Please provide the abstract in the requested format.

### ***Claim Rejections - 35 USC § 112, second paragraph.***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claim 1 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. There are no positive method steps in claim 1.

Art Unit: 1631

***Claim Rejections - 35 U.S.C. § 101/ 112-1***

4. Claim 1 is rejected under 35 USC 101 because the claimed invention is drawn to non-statutory subject matter.

The invention as claimed is drawn to a method for constructing hypotheses. If the "acts" of a claimed process manipulate only numbers, abstract concepts or ideas, the acts are not being applied to appropriate subject matter. A process consisting solely of mathematical operations, i.e., converting one set of numbers into another set of numbers, does not manipulate appropriate subject matter and thus can not constitute a statutory process. MPEP, IV.B.2.c.
